

Oper tape silk

Artificial silk fabric surgical tape

Easy-to-use surgical tape

Artificial silk fabric surgical tape with hypoallergenic white acrylic adhesive

Oper tape silk is breathable and protects against water and dirt. It conforms perfectly to body contours and has a high shear strength.

Indications

- Securing all kinds of dressings, bandages and pads.
- Securing cannulas, probes, catheters, measuring devices, etc.
- Sensitive skin.
- Immobilising fingers.
- Stabilising finger splints.

Acrylic adhesive

High-adherence power with no chemical solvents, enabling the product to be secured perfectly.

Moisture-resistant and can withstand temperatures of up to 45 °C. Pressure-sensitive.

Applying to sensitive skin

The artificial silk fabric support of Oper tape silk is the part that is secured to healthy skin. It is

laminated with a hypoallergenic adhesive mass. Oper tape silk enables the skin to breathe, thus preventing it from macerating.

Waterproof

Oper tape silk's excellent waterproofness enables the patient to maintain personal hygiene without substantially increasing the risk that the surgical tape will fall off.

Easy to use

For the patient

The hypoallergenic acrylic adhesive can be removed easily without trauma and without leaving residue. It does not contain latex.

For healthcare personnel

The artificial silk fabric is easily torn in both directions, so it can be easily and securely applied.

Oper tape silk's wide range of sizes enables any compress size to be covered in a single application, thereby facilitating hospital personnel's work.

Precautions

Do not use on infected or deep wounds or on burns.

Composition: artificial silk fabric surgical tape

Technical characteristics

Support	White artificial silk	Adhesive grammage	68 ± 5 g / m ²
Weight	69 ± 3 g / m ²	Adhesiveness	300 - 900 g / 25 mm
Weft construction	43 ± 1 threads / cm	Adhesiveness on the back	40 - 230 g / 25 mm
Warp construction	23 ± 1 threads / cm	Permeability (MVTR)	850 ± 20% g / m ² · 24 h at 37 °C

Store the product in a cool, dry place, protected from light.
